More comfortable feed at baby's chosen pace

- Easy latch on due to the unique valve on the nipple

PHILIPS

AVENT Royal Gift Set
Classic

SCD683/31

Highlights

0% BPA

This product contains 0% BPA

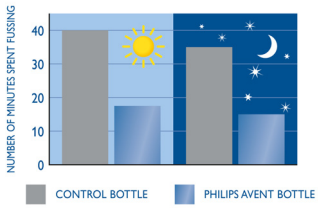
Unique anti-colic system

As your baby feeds, the unique valve on the nipple flexes to allow air into the bottle instead of your baby's tummy.***

Easy latch on

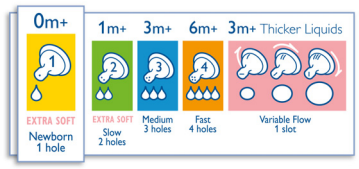
Unique valve on the nipple flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimize overeating and spit-up, burping and gas

Significantly reduces fussing



Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby bottle design affects "infant behavior". The Philips AVENT Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs 74 min, p=0.05) This was especially true during the night-time.**

Fits your baby's growing needs



Five different nipple flow rates are available.

Specifications

Country of origin
- England
